

Los Angeles Times

FRIDAY MORNING, MARCH 24, 1911.

HENPECKED TO A STANDSTILL.

Meek Old Plymouth Rooster Busy Hatching Out Big Sitting of Eggs.

[BY DIRECT WIRE TO THE TIMES.]
MT. VERNON (Ill.) March 23.—[Exclusive Dispatch.] A. S. Dowler, a chicken fancier, has an old henpecked rooster of which he is exceedingly proud. The rooster is of the Plymouth Rock breed, and has the hen idea of sitting. He is now engaged on a sitting of eggs. He is due to hatch a brood in a few days and seems to feel the importance of his mission. It is difficult to get the old fellow off the nest long enough to take his feed.

States Senator William E. Chandler, Chief Counsel for the Eddy heirs; John W. Kelly of Portsmouth, N. H.; David C. Howe of Concord, N. H.; and Hannis Taylor of Washington.

The glove lawyers conferred with several persons, believed to be prospective witnesses, whose names could not be learned. Mr. Chandler and his legal associates flatly refused to tell who they were and were equally reticent about the petition and every other phase of the case.

Meanwhile the spirit of bitterness in the case has deepened and broadened. Mr. Chandler, the glove lawyer, and Gen. Frank S. Streeter of Concord, N. H., legal commander-in-chief for the church, are at daggers drawn, as it were. Chandler started the trouble when he replied to published arguments in favor of Christian Science by Prof. H. S. Hering and Irving C. Tomlinson with two questions.

In a published statement he asked Tomlinson to explain the suicide of his sister while acting as Mrs. Eddy's private secretary and called on Hering to explain a strange letter bearing Hering's signature picked up on the streets of Concord. It is expected that the significance of these questions will develop in court.

Anyway, the situation led to correspondence.

(Continued on Sixth Page.)

INDIA CENSUS IS STARTLING.

England Concerned Over Growth.

Population Increases Many Millions, With Little to Give Them Support.

Government Fears Famine May Result, Ending With Seditious Outbreaks.

Work of Enumeration Proves Difficult and Dangerous to Amazing Degree.

[BY DIRECT WIRE TO THE TIMES.]
LONDON, March 23.—[Exclusive Dispatch.] Premier Asquith and Viscount Morley, Secretary for India, held a conference today discussing the startling preliminary report just received of the recent census of India. The increase of His Majesty's subjects in India of approximately 20,000,000 over the population given by the last census and published here today has alarmed the government, from King George down. Serious concern is felt for political and economic reasons.

Although nothing of a startling nature has been received recently regarding the revolutionary party in India, it is known that the anti-British feeling has not died down. With this increase in population it is feared a famine will follow, for there is no corresponding increase in crops reported. To the contrary, it is rumored that the crops in India are below normal this year.

It is felt in government circles here that a famine at this time would incite the natives to further acts of sedition and might involve the country in disastrous war before being put down. No comment was made officially on the preliminary returns, but further particulars are anxiously awaited.

AMAZING UNDERTAKING.

Final provisional returns, just received from Calcutta, place the population of India at 281,215,000. An army of over 2,000,000 persons were employed in the work of taking this census, most of them tending their services voluntarily. The area covered by the enumeration comprised more than 1,750,000 square miles, and the undertaking was one of amazing difficulties, owing to the character of the country—malarious swamps, arid deserts, sequestered huts in lonely mountain tracts, crowded towns and hamlets and the jungle shelter of wild, nomadic tribes.

The illiteracy of the people formed another obstacle to the census takers, as only a bare 5 per cent. of the population can read or write, and the proportion of householders able to fill out the schedule blanks proved considerably lower than this.

THOUSAND DIE IN WORK.

While official figures are not available, it is estimated that out of the enormous army of enumerators fully a thousand met death in the performance of their duty. Wild animals, the deadly cobra, poison-tipped spears of jungle tribes, infestations of caste laws, swollen rivers, treacherous swamps, and the aidless fevers—all figure in the census of loss of life.

Despite all this, the government is now enabled to present figures that can be reckoned as accurate within a few thousands, the gigantic task having been completed since March 10, that date being selected as being an inauspicious one for marriages, festivals, pilgrimages and other events likely to draw people from their homes.

Sudden Increase in India's Population Alarms England.

Interesting Types Who Figure in Census of India. The huge man on the left is known as the Kashmir Giant and is 7 ft. 9 in. in height. Next to him is Prof. Ricolson, who is responsible for the photograph, during his tour in India, while the other three men belong to a diminutive race. The one on the extreme right is known as the Patiala Midget and is only 2 ft. 4 in. in height. This midget and the giant are both twenty-three years of age.

LEAPS FROM THIRD STORY.

DAUGHTER OF ALFRED VANDERBILT MEREHOLE SUICIDES.

Had Been an Invalid for Years and Fears Were Entertained That Her Mind Was Tottering. But Neither Parents Nor Friends Were Prepared for the Tragedy.

[ASSOCIATED PRESS NIGHT REPORT.]
NAPLES, March 24.—Miss Cornelia Merehole, aged 27, of New York, who arrived here a month ago with her parents, Mrs. and Mr. Alfred Vanderbilt, killed herself today by jumping from the balcony of the Grand Hotel today and suffered injuries that caused her death in a hospital. Miss Merehole had been an invalid for years and fears had been expressed that she would become insane.

GOES TO THE CORONATION.

WASHINGTON, March 23.—Rear-Admiral Charles E. Vreeland, in command of the second division of the Atlantic fleet, has been detailed to represent the navy at the coronation of King George V. Admiral Dewey declined because of the length of the journey.

STEERING CHICAGO LINEMEN ENDANGER LIVES OF SCORES.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, March 23.—[Exclusive Dispatch.] The dynamite bomb made its debut tonight in the war between the Chicago Telephone Company and its striking linemen, hostilities in which hitherto have been confined to more or less successful efforts on the part of unidentified persons to cripple telephone service by cutting cables.

It was due rather to the poor aim of the bomb thrower than to any wavering of his intention that seventy-five non-union linemen, quartered in the telephone company's storehouse, were killed and scores of others injured.

PUBLIC LETTER BY LIMANTOUR.

CORRECTS SOME EXPRESSIONS ATTRIBUTED TO HIM.

Refused to Talk About Plans of His Government and Says His Remarks on Possible Changes in Laws Were Made in Capacity of Individual, Not as Mexican Official.

[ASSOCIATED PRESS NIGHT REPORT.]
MEXICO CITY, March 23.—Minister Limantour sent today to the Associated Press a letter in which he commented upon the interview with him, published today and modified a few of the statements made.

MRS. BLODGETT WANTS DIVORCE.

Alleges That Her Husband, St. Louis Election Commissioner, Has Ordered Her to Leave His Home.

[BY DIRECT WIRE TO THE TIMES.]
ST. LOUIS (Mo.) March 23.—[Exclusive Dispatch.] Daisy Pannell Blodgett filed suit today to divorce Harry W. Blodgett, Election Commissioner and former District Attorney. She alleged he told her he no longer loved her and ordered her to leave his home. Blodgett has entered appearance and the case will be tried at the April term.

HEWITT DEMONSTRATES THE MEASURE IS UNFAIR TO CITY OF LOS ANGELES.

He said the measure would deprive the city of its right to elect its own officials.

OUTLOOK POOR FOR CHANGE OF REPRESENTATION FROM THE SOUTHERN HALF.

[ASSOCIATED PRESS NIGHT REPORT.]

SACRAMENTO, March 23.—The Judiciary Committee of the Assembly voted tonight not to pass out the Caminito anti-injunction bill passed through the Senate after a twenty-hour call of the House. As adjournment has been practically decided upon, this action will mean the loss of the bill, unless it can be forced out tomorrow.

RANDALL BILL CAUSES FIGHT.

Night Session Over Reapportionment.

Hewitt Demonstrates The Measure Is Unfair to City of Los Angeles.

Furious Discussion Follows Attempt to Cut Out All Its Strength.

Outlook Poor for Change of Representation From the Southern Half.

[ASSOCIATED PRESS NIGHT REPORT.]

SACRAMENTO, March 23.—The Judiciary Committee of the Assembly voted tonight not to pass out the Caminito anti-injunction bill passed through the Senate after a twenty-hour call of the House. As adjournment has been practically decided upon, this action will mean the loss of the bill, unless it can be forced out tomorrow.

SEEMS FAR AWAY.

BY W. R. WILLIAMS.

[BY DIRECT WIRE TO THE TIMES.]
SACRAMENTO, March 23.—[Exclusive Dispatch.] A reapportionment of the State seems far away tonight, though the Senate committee on the work is in session and will probably remain in session until the morning. It has before it the Randall bill, which passed the Assembly night before last and which at the outset unanimously declared impossible.

HEWITT WAKES HOT.

Senator Hewitt, speaking for Los Angeles, declared there is no prospect of a fair to the people of the State that does not follow the Constitution. The Randall bill is objectionable to Los Angeles and so is the Welch bill, but that both deny of a fair to the people of the State.

WHEN AN OPEN FIGHT OFFERS REBELS TAKE TO THEIR HEELS.

[ASSOCIATED PRESS NIGHT REPORT.]

A GUAYMAS (Sonora, Mex.) March 23.—Immediate danger of an attack upon Hermosillo seems to be averted for the present by the defeat of 500 rebels yesterday at La Colorado, a mining camp they took a few days ago. A fierce battle lasted all day yesterday and terminated in the retreat of the rebels. The government report places the number of rebel dead at thirty-six and the Federal dead at eight.

GOES TO THE CORONATION.

WASHINGTON, March 23.—Rear-Admiral Charles E. Vreeland, in command of the second division of the Atlantic fleet, has been detailed to represent the navy at the coronation of King George V. Admiral Dewey declined because of the length of the journey.

PIPE SAVES MAN'S LIFE.

Harried by Cave-in of Trench, Smoker Is Able to Breathe Until Rescued.

(BY DIRECT WIRE TO THE TIMES.) WINNEMUCCA (Nev.) March 23.—[Exclusive Dispatch.] Sam Young, a laboring man, owes his life to the fact that he smokes a pipe and that he kept the pipe in his mouth when buried under nine feet of earth by the cave-in of a trench in which he was working. It took rescuers just thirty minutes to remove the tons of earth that covered the laborer, working in relays. Finally the victim was reached. The fact that the pipe had remained in his mouth, keeping his lips apart so that he could breathe slightly, is the reason he was found alive, according to the physician who was hurriedly called.

Office of the company by Martin J. Higley, the local agent, that passed on, marking on the stem of the pipe in Portland for Los Angeles and San Diego will enjoy the benefit of the reduction.

Beginning today, it is announced, the first-class fare on the Elder and the Roscoe from Portland to Los Angeles will be \$15.00 and \$25.00. The fare had been \$18.50 and \$25.00. From Portland to San Diego the rate is \$20 and \$25 while the former tariff was \$21.50 and \$28.50. In notifying Mr. Higley of the reduction the officials of the company intimated that a rate war is imminent. The figures may be even lower before the several transportation lines come to an agreement.

ALLEGED BANK WRECKER HIDES

P. N. Myers, Wanted by Portland Authorities, Has Record in Los Angeles and in San Francisco.

(BY DIRECT WIRE TO THE TIMES.) PORTLAND (Or.) March 23.—[Exclusive Dispatch.] Notwithstanding careful search by police detectives, aided by the sheriff's office, P. N. Myers, alleged wrecker of two insolvent banks, still remains under cover.

Investigations, conducted by State Bank Examiner Wright into the records of Myers have brought some unfavorable disclosures.

It was learned that Myers was at one time connected with one of the largest banks in San Francisco, and that he was with that institution twenty-seven years. After severing his connection he started in the banking business independently, organizing, among others, the Japanese-American bank of Los Angeles, which came to an untimely end.

Myers came to Oregon in 1906 with a record of having engaged in unsuccessful banking operations in California. Two of his institutions located in that state were closed by the banking commission. They were the Commercial Bank, organized in 1904, and the United States Bank and Trust Company, of which Myers was president, which was closed in 1907 by Z. P. Eldridge, at the time a member of the State Banking Commission, afterwards President of the National Bank of the Pacific, San Francisco, but now retired.

WANT RESTRICTED DISTRICT.

Women Join With the Men in Spokane to Solve the Question of the Social Evil.

(BY DIRECT WIRE TO THE TIMES.) SPOKANE (Wash.) March 23.—[Exclusive Dispatch.] Through a "vice committee" of representative Spokane men and women, Zora E. Hayden, Commissioner of Public Safety, is endeavoring to learn the sentiment of citizens of all classes on the treatment of the social evil.

On the finding of this Commission will largely depend whether or not Spokane will have a restricted district under the new administration.

Asked by members of commission for an expression of opinion, members of the Spokane women's clubs have declared almost unanimously for the restricted district. One member of the commission declared that all women of Spokane so far interviewed personally incline to the same view.

On the "vice commission" are Mrs. A. P. Fassett, of the woman's non-partisan political league; Miss Anna Williams, of the Y. W. C. A.; the Rev. Conrad Blum, of the Rev. S. W. McFadden, Rabbi David Levy, F. R. Culbertson, W. H. Cochran and Dr. Cunningham.

IN JAIL WITH HIS WIFE.

Brother of Former Senator in Washington Is Charged With Firing the Winlock Hotel.

(BY DIRECT WIRE TO THE TIMES.) TACOMA, March 23.—[Exclusive Dispatch.] George Vannessa, brother of former State Senator J. A. Vannessa, and a member of one of the oldest and best established families in the Northwest, was charged in the city jail in Chehalis with his wife, charged with setting fire to the Winlock hotel.

The pair were arrested by Sheriff Urquhart as the result of an investigation following a fire that wiped out several blocks in the business section of Winlock. Public feeling ran high and mass meetings were held in the streets, demanding an arrest.

Winlock was visited by a previous fire at noon Monday when several stores were razed. The total damage was about \$30,000.

It is believed that the fire was set by the Vannesses, a family given as a possible motive for the crime charged to Mr. and Mrs. Vannessa.

VESSEL IS THEIR PRISON.

Shortage of Five Thousand Dollars Said to Have Been Discovered on the U.S.S. Independence.

(ASSOCIATED PRESS NIGHT REPORT.) VALLEJO, March 23.—Owing to the alleged discovery of a shortage of \$5,000 in the accounts of the pay office on the U.S.S. Independence, ship Independence, no one connected with that office is permitted to leave the vessel without consent of the executive officer. The shortage is said to include money and stores.

Chief Commissary Steward Henry Holm has been placed in solitary confinement in the brig, pending investigation.

The pay office has been in charge of Paymaster Arthur Plimlin fifteen

WOULD ADJUST LABOR TROUBLES

REPRESENTATIVES OF VARIOUS INTERESTS MEET.

Politicians With Manager of Iron Works and Others Meet and Discuss Matter Informally—Man Falls in a Tank of Distillate and Dies Shortly Afterwards.

(BY DIRECT WIRE TO THE TIMES.) BAKERSFIELD, March 23.—[Exclusive Dispatch.] The good offices of Chairman H. A. Jastro of the Board of Supervisors and general manager of the Kern County Land Company, have been asked in an effort to adjust the differences between the Bakersfield Iron Works and the striking employees.

Manager Rains of the iron works, representatives of the unions, Mayor W. V. Matlock and the chairman of the Republican and Democratic County Central Committees met today in Mr. Jastro's office and discussed the matter informally.

The parties to the conference may they are hopeful of a satisfactory adjustment.

DROWNS IN DISTILLATE.

Carl Berley, helper in the National refinery for the Kern River fields, died today as the result of a fall into a tank of distillate. Berley was watching to see if a pump would throw the right stream into the tank when he lost his balance and fell in. His cries for help brought immediate assistance, but so much distillate had been drawn on the lungs that he died soon. Berley's relatives live in the Pennsylvania oil fields.

MOTORCYCLE VICTIM.

Riding at a rate of forty-five miles an hour through Conners Lane this morning, Harry Owens, an oil driller employed at Midway, tried to pass a wagon, missed a culvert, and was hurled into a ditch. His jaw was broken, his face terribly skinned and bruised and his skull may be fractured. He is about 25 years of age and is well known in Midway. His injuries may be fatal.

ROB SALOON.

While the bartender was engaged for a moment in another part of the room, a thief or thieves early this morning stole a sack containing \$800 from the safe of the Majestic saloon in this city. The safe door had been left open, and at the hour between 2 and 3 a. m. there were few people about. The police are without a clue to the identity of the robbers.

TELLS GAME OF HIGH FINANCE.

Book-keeper of Boise Bank Reveals Startling Methods Used in Kester-Kittenbach Wrecking.

(BY DIRECT WIRE TO THE TIMES.) BOISE (Idaho) March 23.—[Exclusive Dispatch.] A confession, startling in its nature, exposing the alleged manner in which thousands of dollars were abstracted from the Lewiston National Bank, was made on the witness stand yesterday in the Federal Court by Clarence W. Robnett, star witness for the government in the Kester-Kittenbach wrecking case.

Robnett told how he, as book-keeper, acting under direction from George H. Kester, took money from daily deposits, transferred it to the inactive indebtedness and then to the inactive ledger when it was taken out of the bank.

Robnett told of how William Dwyer was permitted to draw checks totaling over \$100,000 on the bank in which he made no deposits; of the alleged falsifying of reports to the comptroller under Kester's instructions; of the key card in the possession of William F. Kittenbach, keeping him posted on the periods when the Comptroller of the Currency would call for reports; and of the tab kept on the bank examiner when he would make his examination.

The cross-examination was grilling. Attorney Tannehill forced Robnett to admit he deliberately abstracted between \$750 and \$800 and other amounts from the bank, and that he speculated wildly with the money.

ARRESTS FOLLOW A DINNER.

Diamonds Disappear on a United States Cruiser in Bremerton and Two Girls Are Taken Into Custody.

(BY DIRECT WIRE TO THE TIMES.) SEATTLE (Wash.) March 23.—[Exclusive Dispatch.] Two girls emerged from the Puget Sound Navy yard after a gay dinner aboard the United States cruiser Colorado; the disappearance of valuable diamonds and the subsequent arrest of the girls in the streets by Marshal Edward Angel were events that excited Bremerton Tuesday night.

Doris St. Clair, 17 years old, and Eva Brown, 14, were the girls and they were arrested on charges of disorderly conduct. No sooner had they been taken in charge than a breathless young man dashed into the girls' office and said he had lost valuable diamonds which he declared, the girls had taken. Marshal Angel fixed bail at \$5 cash, which the girls paid. Instead of appearing this morning in court, the girls boarded a boat for Seattle, forfeiting their bail. Marshal Angel got into communication with the Seattle police. When the girls stepped from the steamer H. B. Kennedy they were again placed under arrest and will be returned to Bremerton.

NEW SEX CULT UNPOPULAR ONE.

Dayton (Wash.) Residents Make Threats Against Leader, Who Appeals to Governor for Protection.

(ASSOCIATED PRESS NIGHT REPORT.) SPOKANE (Wash.) March 23.—Fearful of the sex cult movement and the violence at the hands of the people of Dayton, Wash., who object to the new sex cult advocated by Rev. A. F. and Mrs. Lucas, the couple have sought protection from Gov. Hay, telegraphing him that threats of murder have been made. The Governor wired to the county attorney of Columbia county, to see that no personal rights of the pair are violated.

Lucas announced his intention of lecturing tonight on some delicate questions. This aroused a storm of protest, a clergyman leading the opposition, and Lucas was ordered out of town. He refused to leave and says he will sue those who threatened him.

BALANCES

Duffy's Pure Malt Whiskey

provides that balance of mind and body so essential to every successful life. In these days of strenuous living we all occasionally feel the need of a medicine that will neutralize the effect of disease germs and cause our minds and bodies to work in perfect harmony.

At such times Duffy's Pure Malt Whiskey comes to the rescue. It is a gentle, invigorating stimulant and tonic that influences for good every important organ of the body. It builds up the tissues, tones up the heart, gives power to the brain, strength and elasticity to the muscles and richness to the blood. It brings into action all the vital forces, makes digestion perfect and enables you to get from the food you eat all the nourishment it contains.

It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system, is a promoter of good health and longevity, makes the old feel young and keeps the young strong and vigorous.

Its rare purity and honest richness has won the friendship of the civilized world. It is a remedy that should be in the family medicine chest. It is more than a medicine—it will keep you well.

Sold in SEALED BOTTLES ONLY by all druggists, grocers and dealers, or direct. \$1.00 a large bottle. Doctor's advice and medical booklet free. The Duffy Malt Whiskey Co., Rochester, N. Y.

ONE MAN RULES LEGISLATURE.

Yukon Territory Parliament Convened With Exactly Enough for Quorum and Faces Bitter Fight.

(BY DIRECT WIRE TO THE TIMES.) DAWSON (Y. T.) March 23.—[Exclusive Dispatch.] The Yukon Legislature assembled yesterday for its annual session. Max Landreville was elected temporary speaker in the absence of Speaker Lowe, who is expected from the coast. Exactly enough members were present to make a quorum, but soon after the session began, Andy Smith, the opposition leader, declined further to attend, causing a blockade throughout the entire day.

His position is that not enough members are present for satisfactory legislation. Gov. Henderson has threatened to dissolve the Legislature and call for the election of a new body unless Smith should attend within a few days.

Smith says he is willing to vote, but states sufficient for three months' business, after which time all the members might be able to attend.

The work will now proceed, but Mr. Smith can walk out any day and bring all the legislation to a close.

TWO HURT IN AUTO SMASHUP.

Breaking of Machine on Sausalito Hill Inflicts Injuries on Sheriff and Deputy of Monterey County.

(BY DIRECT WIRE TO THE TIMES.) SAN JOSE, March 23.—[Exclusive Dispatch.] Sheriff W. Koshit of Monterey county and Under Sheriff Bert Davis were both injured, the former seriously, in an automobile accident between Monterey and Sausalito this afternoon.

Three miles from Monterey on Sausalito Hill, the front axle of the machine snapped and both occupants were thrown out. The machine turned completely over and both men were badly bruised. Davis is the most seriously hurt. He has a broken collar bone and a dislocated hip. It is feared he is internally injured, also. He is suffering great pain at the Monterey Hospital, where he was taken.

Dr. L. D. Roberts found the men in the road and gave first aid to the injured. He then brought them to the hospital at Monterey in his machine.

FIREBURNS IN SACRAMENTO.

BOX FACTORY DESTROYED.

(BY DIRECT WIRE TO THE TIMES.) SACRAMENTO, March 23.—[Exclusive Dispatch.] The Capital Box Factory, one of the largest manufacturing institutions for cruetry in the state, was destroyed by fire early this morning. The blaze was plaidy the work of incendiaries and the loss is over \$35,000. The fire threatened for a time to wipe out several blocks of valuable property. A general alarm was turned in, and to add to the confusion and fright three other alarms for minor blazes in other parts of the city were rung up. The building is one of the oldest in the city, having been built in the '50s and used

CAUGHT BY A RED HAIR.

And Something Like Capillary Attraction Was the Basis of a Divorce Decree Granted a Kansas City Wife.

(BY DIRECT WIRE TO THE TIMES.) KANSAS CITY (Mo.) March 23.—[Exclusive Dispatch.] Mrs. Emma Mason was today granted a divorce from Howard L. Mason, a wealthy real estate man and president of the Safety Rail and Joint Lock Company. After listening to testimony this afternoon in which Mrs. Mason told of finding red hairs in her husband's hair brush, and a red hair twisted about a button of his undershirt, and further stated that the red hair corresponded with that which adorned the head of her husband's stenographer, Judge Goodrich granted her a decree and gave her the custody of their 9-year-old son.

A year ago Mrs. Mason met her husband in the Union Depot in company with his stenographer. The explanation was that they had business to transact. A few weeks later Mrs. Mason found red hairs lodged in his hair brush. He said the stenographer might have used the same brush in the office. Later, in preparing her husband's clothing for the laundry, she found an Auburn hair threaded about a button of his undershirt. Then, she testified, she remembered that the hairs she found corresponded with those of her husband's stenographer. Later she took the stenographer to task and that person, she declares, disputed her right to the name of wife. The Masons were married in Windsor, Canada, in 1908.

CONVICTED OF BRIBERY.

ALL OVER A DEAD DOG.

(BY DIRECT WIRE TO THE TIMES.) SAN RAFAEL (Cal.) March 23.—Town Recorder Paul A. Vincillone was convicted this afternoon of bribery after a jury trial lasting three days. Vincillone was attorney for Mrs. John Biggins of Mill Valley, who was arrested for cruelty to animals, when she killed a dog by a method considered brutal by the arresting officer. Vincillone, it was charged, gave the justice who was to try the case a check for \$25. This formed the basis for his arrest and conviction. A former trial ended in the jury disagreeing.

THAT intemperate humorist, Irvin E. Cobb, will make remarks in The Times Magazine on a life which will be one of the

37 E.
Ward's St.
CHICAGO

Entered at the Postoffice as mail matter of Class B.

Deprived of remedy, revenge and railroad fare, the lady returned to Boston, and the husband began at once another action for divorce and sent the papers after her. If she does not come back to San Francisco he will get a default decree against her. If she does come back and defend and ask for alimony he will again dismiss the case. Of course she could file a counterclaim and ask for a divorce from him, but maybe she has to cause and maybe she doesn't want a divorce. He ought to be kicked to death with

HIERARCHICAL CURRENCY. A Petaluma philosopher who has recently issued and put in circulation a pamphlet entitled "Money and Currency" says in its preface that he "does not claim to be either a philosopher, a scientist, a statesman or a scholar"—and he isn't either. He states that, "having had no education, his use of language may seem faulty and his diction bad"—in which statement he underestimates his power as a writer. His mod-

There does not really seem to be any present need of a hierarchical currency. There is plenty of money in the banks and in the state hands to be had at from 3 to 6 percent per annum by anybody who has property or credit with which to obtain it. Even in the halcyon days when shimplants abounded they could not be obtained unless one who was in need of them could offer his watch or his word of honor as collateral.

The pamphlet which we have reviewed—something more at length than its importance justifies—will be read with avidity by the long-whiskered, bucolic political philosophers who sit and spit in the country store in winter and who repose on the whitened benches in front of it.

To be happy is not the purpose of the being, but to deserve happiness.—[J. G. Fisher.]

SHETTLER WINS FROM HOWARD.

Sensational Motor Hill Climb Is Real Battle.

Jackrabbit Noses Out Redbird by Eleven Feet.

Buick Fights to Finish But Skids Into Ditch.

Leon T. Shettler in the Apperson "Jackrabbit" won the novel automobile hill climb yesterday when he topped the Elysian Park grade in fast time with the Buick close behind him. Frank Howard, who drove the "Redbird," made a gallant try to win, but failed by a few feet.

One hour before the race was started, the terms of the contest were announced to Shettler. The Apperson man was ready, however, to start the moment Howard and his attendants arrived at the Shettler garage.

The steep grade leading from Sunset boulevard into Elysian Park was chosen as a course for the unique automobile hill climbing race. Howard agreed to start one block behind Shettler and said he would drive the Buick three blocks while the Apperson was driven two.

This task seemed impossible to any of the automobile men who were invited to the race, until the course was seen. When the string of cars carrying the spectators arrived at the foot of the 30 per cent. climb Howard was the favorite.

There is an "S" turn at the foot of the grade which is difficult. Howard with the Buick swung over the course twice in fast time, and then Shettler was given a chance to try.

Shettler made the top at better than twenty miles an hour. It was conceded that the cars were evenly matched even with such a handicap.

After both Howard and Shettler had looked over the course once more, their racing faces were set and the "Redbird" was whirled back to its starting point. Howard, poised on top of his hill, had a chance to swing down a block, take the "S" turn, and rush at the hill with a speed that his friends figured would carry him to victory.

THE START. When Sunset boulevard was clear and there was no danger from approaching interurban cars, the signal was given. Then the summons came from Starter E. Roger Stearns.

"Are the starters ready?" he cried. Shettler and Howard got busy and both looked excited.

As the Buick leaped away for the down hill dash Shettler was given the signal and he started the stiff grind. Howard came on at a fine pace and looked like a winner. The Apperson, however, is a hard car to beat on a hill.

As Frank took the "S" turn with his Buick he failed to make the swerve into the hill as well as he had done in practice. He swung wide and skidded almost into the gutter. This lost him much of the time, but he had gained on his down hill glide.

He swept on, however, toward the crown of the hill and before the Apperson had gone a block, the Buick was close behind. Shettler, however, had been on his low gear. He slid into the intermediate and then the race was on in earnest. It was Shettler's race from that minute to the summit.

Howard, looking straight ahead at the Apperson, slid into the gutter again when near the summit and once more lost the momentum he had gained. This shut him out of any chance to win the climb.

BACK UP. Then another novel stunt was suggested for the second heat. Shettler agreed to back the Apperson up the climb while Howard drove up, both to start at the bottom of the hill. It was something to climb the grade, to say nothing of backing up the hill. Howard was willing.

Again the pistol snapped and the two cars were started once more in an even more novel contest. This was a clear race than the previous one. Howard slung to the big Apperson with his little red twenty-horse-power car and the watchers could not tell who would win. It looked like a dead heat.

Shettler gained a lead of a few feet.

Whites Beat Blues.

MIXED POLO TEAM WINS FIRST SAN DIEGO GAME.

[BY DIRECT WIRE TO THE TIMES.]

SAN DIEGO, March 23.—[Exclusive Dispatch.] The opening game of the sixth annual tournament of the Coronado Country Club, played today, was won by a mixed team of eastern and California players over a team of Californians, by a score of seven and one-half goals to three and one-half.

The winners were designated as the Whites and the losers, the Blues. Need of practice and the fact that the make-up of the contesting teams was shifted a few minutes prior to the beginning, was the cause of a poor exhibition.

The fast playing of Fred McLaughlin earned a decisive victory for the Whites. McLaughlin is known as one of the newest polo players now on the Coast. He was given good support in his drives by Capt. C. Campbell Bealey.

For the Whites, Maj. Colin Ross and Harry Weiss played fast, but the team in general was handicapped by lack of practice together, which prevented a show of teamwork.

There will be no game today. The California championship will be played Saturday, between the first Pasadena team and Coronado. The

FIRST HOME RUN OVER THE FENCE.

Ed Karger, the crack Red Sox pitcher, hit the ball over the fence for a home run at the new Washington Baseball Park.

"How did I manage to hit the first home run out of the new park?" repeated Karger after yesterday's game.

"Let me tell you something. 'Did you notice that sign over on the left fence, in which an automobile company offers to give a joy ride to any one who hits the ball over its sign? Well, I noticed that sign as soon as I stepped to the plate and concluded I needed a ride. So I simply swung on the ball as hard as I could and you know the rest. I can hit that kind any time I want to."

"The reason yesterday was that I wanted that joy ride."

KARGER'S HOMER BEATS ANGELS.

Boston Pitcher Cracks Ball Out of the Lot.

New Local Player Moore Is a Large Surprise.

Four Heavers Make Batsmen Scatter the Swats.

Boston, 3; Los Angeles, 1.

Brilliant running catches, hard hitting, cracking good baseball and the first home run at the new Washington Park were the big features yesterday in the first ball game the Los Angeles team played with the regular Boston. The big leaguers won, but it was be-

POMONA PLAYER SIGNED BY BERRY.

Manager Henry Berry of the Los Angeles team signed another new ball player yesterday in Johnny Graf, an outfielder with the Pomona College team.

Graf is a left-handed batsman and a good fielder, being considered so promising that he was recommended by Coach Dickinson to Hugh McBrean, of the Boston on their recent trip to Pomona. He was signed by Boston and last night was released to Berry.

Graf played with the Pomona club for four years and has the honor of being the first player in this end of the State to be signed out of a college team directly into a class A ball club.

HE WINS WITH GALE BLOWING.

Harry Kahler Is Champion Amateur Shooter.

Remarkable Score Is Shot by Davenport Youth.

Awarded Diamond Medal for Clever Work.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, March 23.—In freezing weather, with a half-gale blowing from the northwest across the traps, Harry W. Kahler, formerly of Davenport, Iowa, but now of Philadelphia, won the national amateur trap-shooting contest at clay birds from a field of 120 shooters at Travers Island today.

Kahler, who is 25 years old, shot like a veteran and broke 172 out of 200 targets, thrown from traps at sixteen yards' distance. By doing so he won the diamond medal and the championship title which has been held for the last two years by his clubmate, G. B. McCarty, of the Highland Gun Club, Philadelphia, who was runner-up today with a score of 171.

Eight other prizes were awarded, as follows:

F. B. Stephenson, Brooklyn, 170; Frank Hall, New York Athletic Club, 159; C. T. Day, Jr., Newark, 148; C. R. Newcomb, Philadelphia, 146; W. G. Clarke, Boston, 145; G. C. McMurtry, Jr., New York, 143; S. Scott, New York, 142; John Martin, Brooklyn, 141.

Among the professionals who took part in the day's shoot, L. S. Garrison of Wilmington, Del., was the leader, with 152, and J. A. R. Elliott, Kansas City, broke 171.

MANY SEA GULLS.

Anglers Regard This As a Sign That There Will Be Great Fishing This Season.

The unusual number of sea birds of various species which have been drawn to the bay of Catalina Island by the remarkable fish supply is commented upon freely by both anglers and boatmen, all of whom consider it a most favorable augury for future sport, and look forward to the greatest angling season experienced about Catalina in a number of years past.

For three seasons, the island has been patrolled by deputy wardens who have made an effort to enforce the net-setting law, and the practical abandonment of this practice by certain market fishermen is thought to have had much to do with the present increase in the supply of game fish.

Four different varieties of gulls are observed feeding up on the gurry scattered about the surface of the sea by the mackerel in their frantic feeding operations. An army of large brown pelicans and some of the white (Herring) variety is in evidence also.

SIGNS STRIPED BASS BILL.

Assemblyman Cunningham's amendment to Section 438A of the Penal Code relating to the protection of striped bass has been passed. The law formerly read so that anyone taking a striped bass of under three pounds weight was committing a misdemeanor. Cunningham's bill exempts the hook and line fishermen from the provisions of this part of the act, and the bill, which passed both houses, has been signed and made into law by the Governor.

This on its face looks like a discrimination in favor of the sportsman, but the idea underlying the bill is to protect the small striped bass from the ravages of the market fishermen who would catch them wholesale if given the opportunity, being largely foreigners who are not in sympathy with conserving natural resources. The sportsman in fishing for striped bass occasionally catch one of less than three pounds weight, and as these infractions were relatively infrequent, but worked a hardship upon the anglers that was not necessary in view of the purpose of fish protection underlying the law, the exemption was provided for by Cunningham's bill. It was further argued that a small striped bass taken by hook and line method usually was so managed about the mouth as not to be worth throwing back so far as helping the future supply is concerned.

Tris Speaker Fanning Out.

Snap of the hard-hitting outfielder of the Boston after spanking the air in the eighth inning, with Grindie catching.

but Howard stuck to his car and urged the "Redbird" up the grade. Hood to hood came the two machines, the high-powered car digging in and the low-powered machine making good.

Fifty feet from the top Shettler pulled out slightly in the lead. It was an exciting race. Shettler was obliged to look behind him as he drove without a mechanic. Once the Apperson skidded on a boulder and almost crashed into the Buick.

As the cars neared the summit it was nip and tuck between them. Howard hoped against hope. He wanted the second heat. Shettler finished just eleven feet ahead of the Buick. The tonneau of the Apperson was shoved out into the lead and the "Jackrabbit" won by less than half its length.

The race was a splendid demonstration in hill-climbing. Stunts have been pulled off before. This was the newest and latest. It was a double race, Shettler winning the two block against three block motor hill climb, and also winning the backing up stunt.

This is the first race Shettler has won for some time. His last signal victory came in the Pasadena-Alta-Pasadena hill climb. Shettler drove his own Apperson in that race. This finished a series of notable victories, the most important being the Santa Monica race, which was won by the Apperson "Jackrabbit."

(Continued on Fourth Page.)

Ed Karger, home-run hitter.

Well-known Boston American pitcher, who won the honor yesterday of hitting the first homer over the fence of the new Washington Park.

BETTER THAN FOOTBALL.

DENVER, March 23.—"It isn't half as bad as these bullfights that are commonly referred to as football," asserted Maristate Gavin today, in dismissing the charge against Jimmy Gardner and Johnny O'Keefe, who had been arrested as the result of their contest at the Auditorium, Tuesday night, as a part of the Press Club entertainment. The charge had been brought by the Christiana Citizenship Union.

BEAUMONT SHIPS OUT.

NEW YORK, March 23.—One of the first consequences of the decision of the Jockey Club to close the race tracks of New York State the coming season is the announcement by August Belmont, chairman of the Jockey Club, that he will ship to England a squad of his best 2-year-olds. Most of his racing hereafter will be in England and Canada.

AVIATION MEET.

SAN DIEGO, March 23.—San Diego will have another aviation meet, the Aero Club having decided at a meeting last night to announce the engagement of Glenn Curtiss and his school of aviators, and Harry S. Harkness, for Saturday and Sunday, April 1 and 2. Besides Curtiss and Harkness, several of the pupils of the Curtiss aviation school on North Island will fly.

Canal Zone Is Robbed Of Its Ball Players.

[BY DIRECT WIRE TO THE TIMES.]

COLON (R. F.) March 23.—[Exclusive Dispatch.] "Scouts" are barred from the Canal Zone. They must come in disguised, if at all, and had better not be caught for great is the wrath of the rulers. "Scouts" would be deported. Too late. Burke and Moore had gone. So will the sixteen men they signed, and Panama mourns.

"A dollar saved is a dollar earned," figured Jimmie. "We'll do our own scouting."

Quietly, surreptitiously and clandestinely, he worked his molelike way through the Panama Canal League, and before he was done, he had signed sixteen of the very best players between oceans. Even Major E. H. Wilson's champions were not sacred. Major Wilson heads the subsistence department, and either he is a better judge of material or has more soft job to give away for he had the best team on the zone, recruited, of course, in the States.

For he it known that there is no law against inducing a bright young man to quit professional ball and accept an easy clerkship on the zone. And of course if he likes to play Saturday and Sunday, that's his business.

When the Major learned that he has imported all this talent for the benefit

OAKS TROUNCE BOSTON SQUABS.

Hits and Runs Follow Fast One Upon Another.

Carrigan's Irregulars Punished by Woolverites.

Kittie Knight Pitches Five Good Innings.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, March 22.—[Exclusive Dispatch.] Harry Woolver.

Billy Purcell, who is fighting it out with young Janvira for the third base berth on the Boston Red Sox team.

The Oaks trotted out in their new traveling uniforms—a flashy gray with black trimmings and cap—today, at Freeman's Park, and judging by the easy manner in which they handled the Boston Irregulars, they carried a deal more than their pretty suits.

Ten times they scored while the aspirants to the big league were piling up five runs and everybody in their lineup, with the exception of Hoffman and Pearce, took a part at the bat at some time during the slaughter. Just why this pair failed to connect safely is hard to understand, as neither Pope nor Pierce, who toiled for the Sox No. 2, seemed to have little in the pitching line.

On the other hand, the Oaks shone brightly with "Kittie" Knight in the box for the first five innings. Two runs were tallied off Kittie before he got in his stride. Christian did the honors for the last four innings but was in hardly as good form. Three runs were made off him, but the Oaks meanwhile were so busy themselves that Bill Carrigan's irregular crew never really had a rest in.

The Sox started off like quarter horses by getting two men on the bases in the first inning, and followed it up in the second by putting a pair of runners across the pan. Myers walked, went to second on a sacrifice, and tallied when Nunnemaker tripped to center. Perry singled and the second run was over in a hurry.

The Oaks tied it up in the same frame, when Hotelling first up, singled, he reached third on Flyle's out, after Cutshaw had fanned. Wolverton singled and Hestling rang the bell. Pearce walked and Knight smashed out a double to right which allowed Wolverton to score.

Once in their stride, the fighting Wolverton continued the heavy stick work. Hoffman was hit by the pitcher in the third inning, was sacrificed to second, and scored on Cutshaw's two-bagger. Wolverton singled, and Cutley came home. The score:

BASEBALL CHIPS OFF THE DIAMOND

COAST PLAYERS GOING TO TACOMA.

The Spokane team of the Northwestern League is after this overflow men from the Sacramento team. If these are like what Graham had last season Spokane will finish down instead of up.

The National Commission has finally come to its senses and reinstated Ben Henderson, the Portland pitcher who jumped his contract four years ago and since then played in the defunct California State outfit league. Henderson has been ordered to join the Portland team at Santa Maria and may be here with the Beavers on opening day.

The Tacoma team of this year contains a few old Coast League players in Bassey, Rockenfeld and Jimmy Byrnes. These three are good ones and should add strength to the Tigers.

The game yesterday, which was the first appearance of the Los Angeles team in action, showed the fans that the team is a very good one and if the pitchers show up strong the club will be a very evenly balanced organization.

Henry Barry has announced that this will be his last day at the ball grounds and all of the fair ones are

invited to be present and see the game. It will be the only opportunity for the women to see the big leagues.

Janvira must work hard to make the Boston team and the same may be said of Bradley. The club appears to be weak at these two places. If Bradley can learn to hit and Janvira to throw they may stick.

The fans saw in yesterday's game that even Tris Speaker, the mighty knocker, can strike out. Criger fanned him in the eighth inning and the fact showed that Tris can be caught this way on a high ball. Few of them can hit that kind.

Pat Donovan is said to be in favor of Fenwick of San Francisco for a first baseman and he may possibly be offered a chance next year.

Slap Hogan of the Vernon team declares again for the twentieth time that none of his ball players are for sale. He is trying to build up a ball club instead of being anxious to tear the one he has to pieces.

Gardner is one second baseman now on the Coast who can fumble all kinds of grounders and yet get his man at first. This shows he will prove a class but speed that you cannot beat.

Optimistic.

DILLON IS STILL UNDECIDED AS TO HIS INFIELD MAKE-UP.

BY FRANK DILLON.

IF TOZER gets into the game again and we get another good pitcher the Los Angeles team for this season should be as good as any team that ever represented the city. At present our weakness is in our pitching staff, for with Nagle and Tozer out of the game we will start the season very much handicapped.

In the catching department we have Abbott, Grindle and Smith. Abbott is a much better man than Grindle for he is a better thrower and biter and should handle young pitchers better for he has more patience. With myself on first, Moore on second, Metzger at short and Akis at third, the infield looks pretty good to me. Moore

Sounds Reasonable.

HOGAN BELIEVES HIS CHANCES ARE THE BEST IN THE LEAGUE.

BY HAPPY HOGAN.

FIGURE the Vernon club this year as 25 per cent. stronger than last year. The Vernon had last year. The staff was weak last year until the middle of the season, when I got Raleigh from St. Louis and Carson from Chicago. In addition to my last year's men, I have Castleton and Stewart, who are good ones.

I have a new man on first this year in Patterson, who has shown his worth as a ball team, broke all Coast League records yesterday at the New Washington Park for he actually made good in every way of his first appearance. In three times at bat he hit two hard doubles to the left fence and a single to right field.

In the fielding line his first chance to shine came in the third inning and Kleinow was the cause of it. Jack was first to bat and slapped a Texas League fly back of the shortstop's position. As soon as the bat smacked the ball Moore dashed in for it and running at top speed managed to reach the ball on his last stride. It was his last, for he dived forward and grabbed the ball, but as he did so he stumbled and went to the grass, and after rolling over came up with the ball in his hands. It was a wonderful catch and received loud applause.

In the ninth he got another chance almost as hard. Wagner batted the ball to the left fence for a long fly and seeing the ball coming Moore hiked to the boards. The ball came down within two feet of the fence and beyond several boards lying on the ground. To get it, Moore had to keep his eyes on the ball and leap over these boards, but he did both and earned a rep for another classy catch.

BUSHER MOORE MAKES BIG HIT WITH LOS ANGELES BALL FANS.

CHARLEY MOORE, the new infielder-outfielder of the Los Angeles ball team, broke all Coast League records yesterday at the New Washington Park for he actually made good in every way of his first appearance. In three times at bat he hit two hard doubles to the left fence and a single to right field.

In the fielding line his first chance to shine came in the third inning and Kleinow was the cause of it. Jack was first to bat and slapped a Texas League fly back of the shortstop's position. As soon as the bat smacked the ball Moore dashed in for it and running at top speed managed to reach the ball on his last stride. To get it, Moore had to keep his eyes on the ball and leap over these boards, but he did both and earned a rep for another classy catch.

LOS ANGELES GUN CLUB TO SHOOT NEXT SUNDAY.

UNLESS bad weather should prevent, the first shoot of the newly organized Los Angeles Gun Club will occur next Sunday at the grounds in Venice.

The shoot will not be a formal, programmed affair, that before reserved for the next Sunday following, when the grounds will be thrown open to the saucer-smashing world and formally inaugurated with a one-day tournament, programme for which will be announced in these columns later on when fully made up.

The long rainy spell put President Bruner and the committee back somewhat, with their cement arrangements

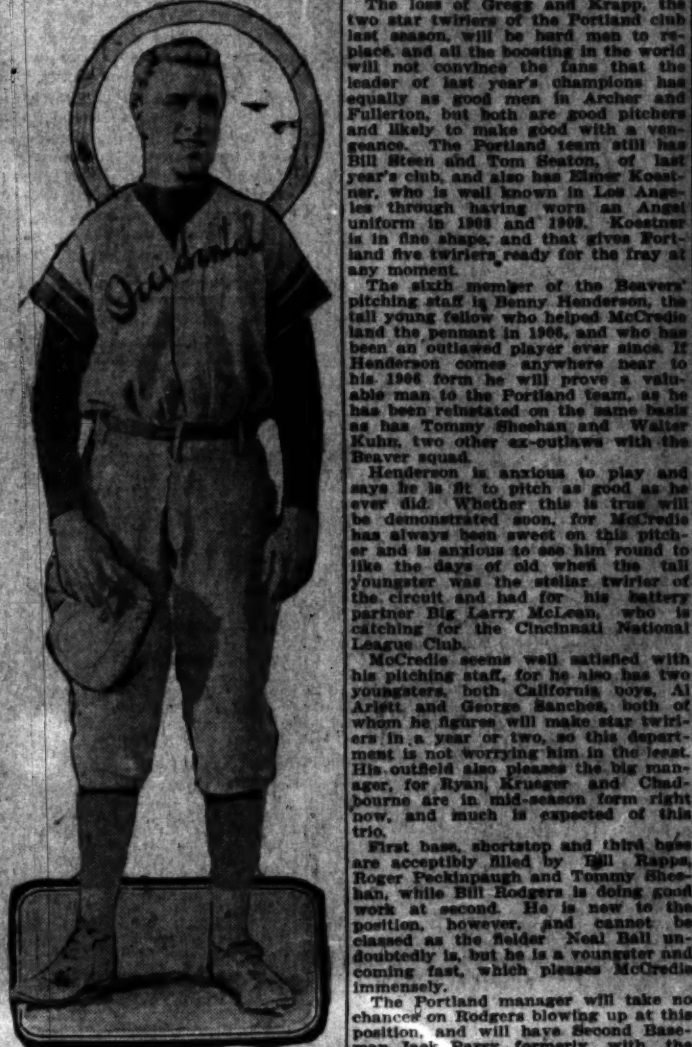

BEAVERS OUT FOR PENNANT.

Strength of Team Uncertain But Looks Good.

Ben Henderson Is Expected to Help Barmen.

Jack Barry Is Secured to Work at Second.

(BY DIRECT WIRE TO THE TIMES.)
SANTA MARIA, March 22.—[Exclusive Dispatch.] McCredie's Beav-

George Baer, captain of the Occidental baseball team.

are rapidly rounding into shape for the opening of the annual baseball

struggle, and the big Portland manager seems to think that he has a tough stroke over club than last season, but this cannot be effectively demonstrated until his club meets Frank Dillon's Angels in the opening series commencing next Tuesday.

One thing is certain, and that is that McCredie has bolstered up his team, and this year McCredie figures that he has the best club for the reason that he claims he has strengthened his weak spots to better advantage than has Los Angeles. However, that is but the Portland manager's view of it and it remains to be demonstrated by the meeting of the two clubs next Tuesday afternoon.

The loss of Gregg and Krapp, the two star twirlers of the Portland club last season, will be hard men to replace, and all the boosting in the world will not convince the fans that the team of last year's champions has as equally as good men in Archer and Fullerton, but both are good pitchers and likely to make good with a vengeance. The Portland team should have Bill Steen and Tom Seaton, of last year's club, and also have Elmer Kostner, who is well known in Los Angeles through having worn as Angel's uniform in 1903 and 1904. Kostner is in fine shape, and that gives Portland five twirlers, ready for the fray at any moment.

The sixth member of the Beavers' pitching staff is Benny Henderson, the tall young fellow who helped McCredie land the pennant in 1905, and who has been an outclassed player ever since. If Henderson comes anywhere near to his 1905 form he will prove a valuable man to the Portland team, as he has been retrained on the same basis as Tommy Sheehan and Walter Kuhn, two other ex-outliers with the Beavers squad.

Henderson is anxious to play and says he is fit to pitch as good as ever did. Whether this is true will be demonstrated soon, for McCredie has always been sweet on this pitcher, and is anxious to see him sound to like the days of old when the tall youngster was the stellar twirler of the circuit and had for his battery partner Big Larry McLean, who is catching for the Cincinnati National League Club.

McCredie seems well satisfied with his pitching staff, for he also has two youngsters, both California boys, Al Argett and George Sanchez, both of whom he figures will make star twirlers in a year or two, so this department is not worrying him in the least. His outfield also pleases the big manager, for he has a young man, Roger Pockinpaugh and Tommy Sheehan, while Bill Rodgers is doing good work at second. He is now to the position, however, and cannot be classed as the Bader. Neal Ball, undoubtedly is, but he is a youngster and coming fast, which pleases McCredie immensely.

The Portland manager will take no chances on Rodgers blowing up at this position, and will have Second Baseman Jack Barry, formerly with the New York National League Club, and last year with the Milwaukee American Association club, join his team at Los Angeles next week. Barry is in business at Portland, where he is pro-

Sporting Comm.

Like Old Times.

WOLF UNDER LEE OF CA.

BY EDWIN L. HEDDERLY.

Considered from week-end racing, the most remarkable thing about the recent meeting at Santa Anita was the fact that the winner of the race was a horse named "Wolf Under Lee of California." This horse, owned by Mr. Lee, was a very fast and powerful animal, and his victory was a great surprise to many of the spectators.

The race was held on Friday morning, and the weather was very fine. The crowd was large, and the excitement was high. The horse "Wolf Under Lee of California" was a dark bay color, and he was very well trained. He was driven by a very experienced driver, and he showed great speed and endurance throughout the race.

The victory of "Wolf Under Lee of California" was a great triumph for his owner, Mr. Lee, and it was a very exciting moment for all the spectators. The horse was a real star, and his performance was truly remarkable.

been trimmed we would have to look to the Democratic conventions for our "prize fights." If we couldn't get into the House of Representatives at Washington, just imagine what Jim Fynn and Jim Barry would do.

Need some Protection?

Speaking about white hopes makes me think that if Stuckey, McDonnell, Morris, Kaufman and the balance of them are as smart as their managers think they are they will form a White Hope Protective Association. If they will have monthly contests among themselves and adopt a set of by-laws drawing the color line there is no reason why the four of them can't make a lot of easy money. Their only chance, however, to get this easy money is not to sleep across that dark line. If ever they do they will get their respective blocks knocked off.

Business Is Business.

It will soon be time for the yachtsmen and the tennis players to start their summer tournaments. I sometimes think that amusements are best alive by the factories that have white canvas for sale for sails, pants and shoes.

Another Packey Boy.

If Antonio LaGrave, the San Francisco butcher boy, weighed 138 pounds when he fought Bat Nelson, he will have to cut off his right leg to get down to 125 pounds for the Volgaat. From what I know of Volgaat he is not trying to be the one-legged champion.

All in a Lifetime.

Now that the chess "championship" is ended in Spain, we may be able to get a lot of real news over the cables. The horse show "championship" has also been decided at Long Beach and we can rest a little easier with these two big events decided. We can put in the balance of the year thinking about why we ever thought of these at all.

R. Reid.
of Los Angeles, vice-president of Western Bowling Congress.

BOB REID, HUSTLER.
Los Angeles Man Wins Vice-Presidency and Bowling Congress for Los Angeles.

Robert W. Reid, familiarly known to his many friends as "Bob," deserves more credit than any other one man for bringing the 1911 tournament of the Western Bowling Congress to Los Angeles.

Reid is the organizer of an association composed of the different alley managers, who were the means of raising sufficient funds to defray the expenses of the Los Angeles team to the annual tournament of the West. This team acquitted itself by taking away the best prize of the meet. Through his diplomatic work at the recent meeting of the association in Spokane, the whole body was swung to the support of Los Angeles, and at a time when there was great opposition to this city being chosen for the next tournament.

Although Bob Reid has been in Los Angeles for about two years, he has only been identified with the bowling game since last June, but within that short time has become well and favorably known to a host of bowlers in Southern California. The Western Bowling Congress recognized his ability and progressiveness by electing him first vice-president of the association. He is also the secretary as well as organizer of the present Interurban League now holding one of the most successful and interesting tournaments ever played in this part of the State. It means a fight to win every time two teams in this league get Reid is 25 years of age and a southerner.

BOWLING SCORES.

In a try-out series by the City Electrical Inspectors on Brunswick alleys last night, the All-Stars defeated the Pasadena Newberry-Bendhams took five from the Pacific States.

The results:

Team	1	2	3	4	5	Tot. Av.
YANKEES	118	127	120	115	110	116
ALL-STAR	128	135	125	120	115	124
YANKEES	118	127	120	115	110	116
ALL-STAR	128	135	125	120	115	124

BOWLING BRIEF.

Jimmy Pearle and Louis Kraemer have signed to play with the Orpheum team in the coming class A tournament. Capt. Meyer of the Woodhills-Hulse team was hot after these birds, but evidently his terms were not satisfactory.

With Howard Burke all lucky strikes are good ones and the misses are "hard-jack" shots.

Bill Aldridge and Minnie Dee will wear Harding uniforms in the next Southern California class A tournament. Harding says bowling is a hard game to dope, as good bowlers come in both large and small packages—witness Aldridge and Dee.

Just as the Harris & Frank boys thought they had second place in the Commercial League firmly grabbed, somebody put the rollers under and dumped them to fourth position. The "somebody" in this case answers to the name of Woodhills-Hulse.

Frank Camp may be a good actor on the stage, but in the language of the bowling "bug" he is a bad actor on the maple drives. If you have any doubt as to the veracity of this statement, Harding says bowling is a hard game to dope, as good bowlers come in both large and small packages—witness Aldridge and Dee.

The Broadway League, now being held at the Orpheum alleys, is an extremely interesting tournament, and many of the young bowlers being developed will soon blossom out into faster company. Watch out for them!

Forrest Hershey is one young bowler that will soon break into the A class. He now plays in the left side and lets it go with a swing, and movement. He has all the earmarks of a real bowler and only lacks experience and a little steadiness.

Talk about a hot bed of bowlers! There are only six Mullen & Stettin teams, and the rivalry stirred up between them is something awful. This boy Mallory is getting to be some good. He is probably the champion of them all.

Ask George Herman how a man can be a low dog in a bunch of sixteen. This is what happened to George in the recent Los Angeles Athletic Club tournament. He was second place, but the percentage came up and down and read it that way.

Snyder-Atterbury-Welton is a trio of real live birds representing the Brauer team in the Commercial League, and now have second place pretty well in hand. They are praying for some team to beat the Bartlett, who are tied for second. They look like the goods.

Club dues must be paid and team entries made tonight at a meeting of the Southern California Bowling Association to be held in the Germania building at 8 o'clock. The association will complete all arrangements for conducting a class A tournament, which will start Monday night, April 3.

Gossip Along Gasoline Row.

Bill Ruess is a great sportsman. He is gathering gasoline. Ask Bill about them. He is making a collection.

E. Roger Stearns started that Aperson-Buick race yesterday. He knows how to win, and he is a winner in that four to Garraus.

O, you Howard. You are game, but when it comes to "G" turns you are not there. Never mind, old man. You made a game race right to the finish.

Ralph Hamlin is not driving his wind wagon so much lately. The machine is in shape for a race, though.

Bill Pickens is on the job every minute. He is in fighting trim, but then Bill is a good fellow and we've agreed not to take him seriously.

Barney Oldfield attended the baseball game yesterday. His best friend, Jim Jeffries, was with him. Barney is an outlaw, but how about his cars?

NEW ATHLETIC UNION.
SAN ANTONIO (Tex.) March 22.—With more than a score of colleges, academies and schools represented, the Texas division of the Amateur Athletic Union was organized here last night. The creating of a division of the A.A.U. in Texas takes this State from the Southern Association and makes it the only independent union in the country.

TOO MUCH AUTO.
NEWARK (N. J.) March 22.—Joe McGinnity, manager of the Newark baseball club, suffered an accident which may incapacitate him for the coming season. His right wrist is believed to be broken. McGinnity was cranking an automobile when

WOMEN.

Learn to relax. To learn how to let go—
to relax muscles is as much a part of
the art of living as it is to learn to
hold on tightly. Watch yourself and it is
amazing how often you are found
tense. To the couch upon which you re-
cline, with nerves tense. Let go! Relax
the body, but also the mind, should relax.

place for the lunch, the drinking cup
and also for the specimens picked up
on the way. It is a people who wear
gloves when tramping, but for myself
I enjoy the freedom of uncovered
hands and in fact I have the feeling
that I am breathing in the country air
through my hands as well as through
my lungs. Whatever you wear or
carry, try to leave the hands free to
swing at liberty and to assist when-
ever you come to a climb, along the
way. Do not over-burden yourself
with lunch.

A New Color.
"Blanc Sale" is one of the new colors
employed in the latest plumes for ultra-
fashionable millinery. The literal
translation of this is "soiled white";
and that is literally what the plumes
look like. Old notions, Dame Fashion
takes, doesn't she?

A Fad.
A wide, shawl like scarf of chiffon,
edged with plaid silk, is worn knotted
at one side below the waist line and
extending carelessly across the shoulder.
It is difficult to predict what
capers will next be cut by the omni-
present scarf.

Latest Paradox.
I saw in a Broadway store noted for
its chic fashions the latest develop-
ment of the paradox. It was a thiffo-
nary affair of black and white and it
was edged with a narrow border of
marabout in a combination of black
and white. It is not economy which
leads the sovereign Dame to adminis-
ter last winter's trimmings with this
season's goods; but Fashion knows a
becoming thing when she sees it and
she proposes to cling fast to every item
which improves the feminine personal
appearance.

WOMEN'S WORK, WOMEN'S CLUBS.

BY ROSE L. KILMER.

At the meeting of the Ruskin Art
Club Wednesday morning Bolivia was
the topic, with Mrs. F. B. Long and
Mrs. Ella Hubbard as leaders. A paper
dealing with the general characteris-
tics of Bolivia was read by Mrs. G. W.
Stanton. Mrs. Stanton Hodgins gave a
talk about the ruins to be found near
Lake Titicaca; Mrs. F. B. Long read a
paper concerning the mines of Bolivia;
Mrs. C. E. Day reviewed Sir Martin
Cromwell's "History and Exploration in
the Bolivian Andes."

A general discussion as to the sub-
ject of next year's study followed.
While many were in favor of continu-
ing the work on South America, which
has proved of such great interest and
value this year, it was finally decided
to make the Netherlands the topic for
the year's work, with an occasional day
to be devoted to Spanish American
topics. The History, Literature and
Art of the Netherlands will therefore
be the subject of study for the coming
year.

Mount Holyoke Alumnae.
On Saturday about sixty women from
various sections of Southern California,
graduates of Mount Holyoke, the old-
est woman's seminary in the United
States, met at the W. C. A. Club for
their annual gathering. A pro-
gramme will be rendered and a social
reunion will follow.

Woman's Alliance.
The annual meeting of the Woman's
Alliance Maternity Cottage Association
will be held in the hall of the Frank
L. Law House, 415 South Hill
street, Tuesday at 8 o'clock p. m. Of-
ficers for the coming year will be elect-
ed, reports made, accounts of the scope
of the work given and much other busi-
ness transacted as will tend to the
betterment of this most necessary char-
ity.

The objects of this association are to
provide a home for needy and destitute
wives during the period of con-
finement, where they shall receive pro-
per medical attention and competent
nursing, at this the most critical period
of their lives, and to do such other
helpful work as may be deemed expedi-
ent by the board of directors.

The public is cordially invited to be
present and the women in charge will
receive, very gratefully, any sugges-
tions as to the methods of conducting
the work. Any person may become a
member of the Association by paying
a monthly or yearly subscription, or by
donation.

Y.W.C.A.
Mrs. Harriet Williams Myers will
give a half hour talk on "Birds of
California," in the Membership room, from
11:30 to 1 p. m., Friday.
Friday afternoon from 2:30 to 5, the
Membership Committee, which has
been engaged in an active campaign
for new members, during the past two
months, will hold a reception for new
members and for women generally, in
the members' room. Tea will be served,
an informal musical programme ren-
dered and Miss Amelia Johnson, gen-
eral secretary, will talk on the general
work of the Association; Miss Chapelle,
extension secretary, will talk of her
special field. Miss Jessie A. Pratt
will also speak of her work for trav-
elers and at the railroad stations.

**Satellite Talk From Well-Known
Author.**
Gwendolyn Overton Wilkinson, author
of "A Heritage of Unrest," one of the
best novels of western life yet pub-
lished, and also author of several other
popular novels as well as many short
stories of literary merit, will be the
chief speaker at the Saturday after-
noon meeting of the Political Equality
League, at 10:30 o'clock. Henry C. Dillon,
Ex-Judge of the Supreme Court, will
also give his views on the subject.
Mrs. Shelley Tolhurst will preside, and
a brilliant meeting is assured.

Opening of Model Cottages.
A number of members of Ruskin Club,
headed by their president, Mrs. E. C.
Bellevue, visited the model cottages
completed on the grounds of the Utah
street school Thursday afternoon. A
host bungalow, with kitchen, pantry,
bathroom and closets, all completely
equipped for use, has been built by the
school board to accommodate the dis-
tressed women dependent on the school.

Kaiserin and Her Pearls.
The latest photograph of the German Emperor's wife wearing her famous
ropes of pearls, which she will take to England in May.

GERMAN EMPRESS READY TO SUITABLY "SHINE" IN ENGLAND.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

BERLIN, March 4.—Will the Kai-
serin take all her jewels with her
and will she find a husband for our
little "Princesschen," as Princess Vic-
toria Louise is affectionately known
over here, when she accompanies the
Kaiser on his visit to England for the
unveiling of the Queen Victoria mem-
orial in May, are the two questions
everybody is asking.

It is pretty certain that the answer
to the first question will be yes, for,
to begin with, Kaiser Wilhelm has no
idea of hiding his light under a bushel
anywhere, and no doubt he will give
orders to his submissive spouse that
she shall keep his company and make
a good show; there won't be any com-
petition between them because he will
do all the talking, so if she is suitably
bedecked that will suit Wilhelm to a T.
Not that the Kaiserin wants much
encouragement to display the contents
of her jewel-case on her ample person.
As a rule, she is literally plastered with
jewelry, from her collar down to her
ankles, and she is not averse to being
seen in the most brilliant of her
trappings. It is what the French people
call "bourgeoise" in appearance, the
effect being heightened by her hair,
now quite white, which she wears in
an enormous halo round her head.

However, in spite of these traits,
which all foreigners easily recognize
as being thoroughly Teuton, she is
most estimable and it is safe to say
that hardly another woman on this
wide earth could have filled so success-
fully the difficult task of wife to the
Kaiser. She early realized that he was
the only "boss" of that sort, and con-
ducted herself accordingly with com-
plete success. But although she never
has attempted to interfere in any way,
she always has interested herself heart-
ily in all affairs of state, and often,
though he hasn't realized it, has been
a restraining influence on her impul-
sive and telegram-despatching hus-
band.

By her children she is simply adored,
and she has always supervised every
detail of her household personally, so
such minor foibles as love of jewelry
are easily overlooked by her—I beg his
majesty's pardon—his subjects.
Princess Victoria is looking forward
to her visit to England with no little
excitement. Though she has met some
of her English relations, she has never
been in England before, and she is
quite unbiased enough to feel pleased
at the thought of exploring new terri-
tory and meeting new cousins. Of
course, her visit is giving rise to nu-
merous rumors as to husband-hunting
for her, but unless the object of their
search were the youthful Prince of
Wales, who is still a schoolboy, it is
hard to guess who else they are after.
The only other royal prince are the
Battenbergs, of whom there are three
and Prince Arthur of Connaught, and
none of these is the least likely. The
first three millions most certainly
him as of royal rank, even after he
had been made so by Queen Victoria.
And Prince Arthur, though he is a
very nice boy, won't do either, for he
has no position of his own, being only
the son of the king's uncle.

A verdict of murder in the first de-
gree was returned by an Admora
(Oklahoma) jury in the case of A. Wash-
wood, charged with killing Eben Col-
lins, at one time a deputy United
States marshal in Oklahoma Territory.
The death penalty was pronounced.
The official census shows Hungary
to have a population of 20,850,700, an
increase in ten years of 1,594,000.

The ladies of Ebell Club furnished the
rooms, simply but appropriately and
artistically, for the teachers of
the school live in the cottage. The
domestic science teacher, Miss Stidlen,
has charge during the day and here
class after class of little boys and Mex-
ican, Italian and other children who
have never before seen the interior of
a modern well ordered home, come to
take "really" lessons in house-
keeping. The only suggestion of school
work is the blackboard on the kitchen
wall on which menus and receipts for
soups and salads are written for the
study of the cooks. The children really
do the work of the house, in every de-
partment, and under the guiding hand
of an expert. This domestic science
that will count all through the lives
of these girls as housekeepers and
mothers. The school board has recent-
ly added a large space to the grounds
of this school, which is attended by
more than 800 children, most of whom
have literally no place to play or to
live, except the street—and Utah street
at that. Simple apparatus, swings, a
ball ground and tennis court have been
supplied and this school playground is
giving lessons in citizenship to these
foreign children which are just as val-
uable as any they learn in the school
room.

Presidents' Council.
The officers of the Los Angeles Dis-
trict Federation will entertain officials
of the Southern District and of the
State Board at a luncheon in the Ebell
Club House next Tuesday. In the af-
ternoon the Council of Presidents will
hold a session to discuss Federation
matters in preparation for the coming
annual meeting.

CHARGED WITH CRUELTY.
Three Men Arrested Are Fined in
Justice's Court and One Demands a
Jury Trial.

Through the activity of Officers Ful-
lerton and Fowler of the Society for
the Prevention of Cruelty to Animals,
three men were yesterday haled be-
fore Justice Forbes.
H. B. Peabody of San Fernando,
charged with working a horse that had
a lame shoulder, pleaded guilty and
was fined \$25. E. E. Lewman and R.
B. Mullen, also of San Fernando, were
muled in the same amount. Lew-
man owns many mules, some of which
have sore shoulders.
Mullen, an employee, is said to abuse
them when he drinks to excess. He
was also charged with abusing teams
which refused to draw heavy loads in
deep mud. He was charged with fur-
ther, which was set for next Friday.

DAMAGE SUIT.
L. L. Nancey has made the Los An-
geles Railway Company defendant in a
suit for \$250 damages for injuries
alleged to have been inflicted Febru-
ary 20. The complaint was filed in
Justice Reeves' court. Nancey alleges
that while driving down Twelfth
street a car struck him, damaged the
carriage and inflicted injuries upon
him.

FRANK G. CARPENTER'S letter in The
Times Magazine the coming Sunday will be
an interesting account of the life of the
king and queen of Sweden.

Bunco
We Wish We Could Show Every
Style Represented in these Skirts at \$5

—If we could, and could at the same time, put
in the hands of every woman who reads this ad-
vertisement one of the actual garments—there
wouldn't be enough skirts to last through the day.

—They are not ordinary \$5 skirts in many ways nor were
they purchased in an ordinary way to sell at this price.
Specialists in skirt making designed them—the materials
of which they were made were chosen from the most
favored of this season's fabrics. The manner in which they
are finished—inside and out—shows that the greatest pains
were taken in cutting and putting them together.

—Style, workmanship, finish considered, they are incompar-
able values for \$5.

—The fabrics include—fine heavy panamas—splendid man-
nish worsteds—serges, rich diagonals and many mixtures.

—The colors, black, brown, cream, gray and navy.

—The picture shows one of these new models.

—Skirts of extraordinary worth, \$5. Second Floor.

Gordon
HOSIERY

Mr. Shaughnessy Charged With Burglary Excepts to the Manner in Which His Case Is Handled by Lawyer and Runs It Himself—He Gets Eight Years.

VIRALIA. March 22.—To have a house built for one in a single day, without cost and without even allowing the recipient to help with the construction work, is a bit of luck which does not fall to the lot of one often, yet the charitably inclined members of the W. O. W. lodge of this city did just that exceptionally practical charity yesterday, when all of the members of the camp turned out in four hours of strenuous labor, built from foundation to roof a complete residence for J. W. Maske, a member of the order, whose place was destroyed by fire a few days since.

Maske, who lives on the Tulare road came from the East for the benefit of the health of members of his family and the destruction of his home left him in straightened circumstances. With only a few hundred dollars of insurance on the place and the members of the lodge were left with nothing but the clothing they wore, their situation was truly desperate. At the meeting of the lodge Monday night the decision was made to build the house and more members of the lodge turned out for the work than could be used. At noon the ladies of Magnolia camp, Women of Woodcraft appeared on the scene, laden with good things to eat and after a short period of rest work was started again. Not only was the house completed, with windows, partitions, doors, etc., but the rooms were furnished and a portion of the furniture paid for.

LOST CASH.

M. Shaughnessy, who was before the Superior Court Monday on a charge of having burglarized a room in a local lodging house, was convicted by a jury in Judge Wallace's court yesterday after deliberation of less than an hour and was sentenced to a term of eight years in the penitentiary.

Shaughnessy took the case out of the hands of his lawyers after the summing up of the prosecutor and read from a paper which he had himself written a charge that he had been "jobbed" and that the lawyer appointed for him by the court, Joseph Greene of Dinuba, had refused to handle the case as he directed.

Green, in refutation of this charge on the part of the defendant, stated that the only instance in which he had refused to carry out the instruction of his client was in the introduction of one witness. Green said he had interviewed the witness in question and that the only testimony he was prepared to give was distinctly unfavorable to the defense.

ALLEGED IMPORTER.

C. W. Brant, who claims to be a member of a wealthy family in New York, was brought back from San Diego yesterday by Deputy Sheriff C. W. Nantz and lodged in jail to await trial on a charge of obtaining money under false pretenses. As far as the local police are concerned, the game put up by Brant is a new one. He is familiar with the local scene and work of the Masons, the Odd Fellows, Knights of Pythias, Foresters and Woodmen and armed with receipts which indicated that he was in very few cases, as far as can be learned, was his appeal turned down. After Brant had thoroughly worked the town, a member of the Masonic order became suspicious of him and again getting into conversation with Brant it is alleged, discovered he was an impostor. By the time the police could be notified, it is asserted that Brant had taken the alarm and disappeared. The description was sent out and he was apprehended in San Diego. Brant was very composed over his arrest and says he can show that he really is a member of the lodge to which he professes to belong. It is stated by a member of the Masonic order here that he may have been in standing at some time, but that he is not familiar with late working signs of the craft at present.

FAILURE TO PROVIDE.

W. H. Colyer, a traveling salesman, was arrested in Modesto this morning, charged by the local officers with failure to provide for his wife and family, who have been making their home in this city for the past several months. It is asserted by Mrs. Colyer, who swore to the complaint, that she secured a divorce some months ago and the decree was granted on the agreement that Colyer was to provide for the family for a period of three years. Colyer denies that any such agreement was made and says he will fight the case.

One of the most voluminous documents ever placed on record in the Superior Court of this county is the complaint which was issued against Ayon M. Coburn, in which he is cited to appear in court and show cause why certain names which now appear upon his Great Register should not be erased therefrom and why Coburn, in his official capacity, should not be compelled to make such erasures.

After reciting the facts at issue, that the names of certain registered voters, in the language of the complaint are "illegal, null and void," a separate and distinct action is then outlined against each of the fifty-odd defendants. In addition to the draw-

ing necessarily drawn, with the same number of summons.

Legal action other than the civil suits has been begun in the case of five of the defendants and it is probable that even more arrests will be made.

HAVE CANDIDATE.

Every effort is being put forth by the cities of the East Side to secure for C. F. Balam of Exeter appointment upon the State Highway Commission, the three members of which are to be named by the Governor, it is said, by those in touch with affairs at Sacramento, during the coming week. It is believed that with Balam on the commission, the location of the proposed \$15,000,000 State highway by the East Side route will be all over except the actual construction.

News from the mountains is that snow now covers the Sierras from an elevation of 4500 feet upward. At an elevation of 6000 feet, which is that of Giant Forest and General Grant Park, the snow is now six feet deep. At Mineral King there is sixteen feet. The conditions resemble the conditions of year before last. In 1906 the snow was twenty-six feet deep in the Giant Forest on the fourth of March. There is more than the average amount of snow in the mountains this year and tourists planning trips will do well to figure on this fact.

MURDER TRIAL IN PROGRESS.

Richard Ward of Bad Repute on Trial for Slaying a Race Track Follower.

HANFORD. March 22.—Richard Ward, two-time ex-convict, is on trial in the Superior Court for the murder of "Tommy" Clayton, a race track follower, in this city last October. Ward is alleged to have shot Clayton after a drunken brawl on the night after the fair race meet closed here. He made good his escape and was at liberty for several months, being captured at Oakland. The first day of the trial was consumed in securing a jury, at the first witnesses when the taking of testimony began were William Skiles, a fellow-employee of Clayton, and Robert Groves, a Los Angeles horseman for whom Clayton worked. Both were present when the quarrel started and when the murder was done. Ward has practically confessed the crime, and will attempt to justify it on the ground of self-defense, a plea which Groves' testimony flatly contradicts.

ELK HURT.

Harry Ayers, one of the best-known ranchers in the Grangeville district, has been unconscious since Monday evening as the result of injuries received in an automobile accident, and from which his recovery is still doubtful. Ayers was with a party of friends on their way to Fresno, where one of the party was to be initiated into the Elks lodge. When near the Morgan vineyards Ayers' car blew off and he immediately started to alight from the machine. Misjudging the speed of the car, he alighted backwards when the machine was going fairly fast. He fell violently to the road and was picked up unconscious and has never since regained his senses. He weighs over 200 pounds, and the blow to the back of his head, which was severe. A concussion of the brain and injury to the spine are reported by the doctor with a possible fracture of the skull.

NEWS BRIEVITIES.

Work was started this week on the Grangeville boulevard, the first "good roads" movement in this county to get down to a working basis. This highway will be about six miles in length, and will cost approximately \$2000 a mile, the expense to be paid by the property owners, the county to supply

only the oil and pay the services of an overseer.

Under the auspices of the Athletic Park Association, which controls the Hanford baseball club, Eugene Ely, the famous birdman who during the San Francisco meet flew from the aviation field to the deck of the cruiser Pennsylvania and back, will give exhibition flights at the Hanford fair grounds next Sunday afternoon. Automobile and motorcycle races will be given in connection with the event, and special trains are to be run from several valley cities.

The San Joaquin Valley W.C.T.U. convention opened in this city this afternoon. Sessions will be held at the Presbyterian Church tomorrow, also. The State and district presidents are in attendance.

News from Washington is to the effect that the office of the supervising architect of the Treasury Department is far behind in its work, and that it is probable a full year will elapse before work will be started on plans for the new \$75,000 postoffice building in this city. The site has already been selected and an appropriation is available for its purchase.

Dan Smith, a local realty broker, made a bluff at suicide a few nights ago. His wife is suing for divorce and Smith sought an interview. When she refused to withdraw the suit he exclaimed: "Well, then, I'll kill myself." Taking a vial from his pocket he placed it to his lips and then lay down on the lawn moaning. A doctor was summoned and immediately administered a powerful emetic. He discovered later, however, that the vial contained nothing but a very weak solution of iodine, and that Smith had only smeared it on his lips and had taken none internally. Hugh P. Davies, formerly of Los Angeles, has been selected permanent secretary of the Hanford Automobile Club.

DEATH IN TERRIBLE FORM.

Austrian Laborer Drawn Into Brick-making Machine and Mangled, Too Scared to Cry Out.

Evidently fascinated, or frightened dumb, by the quickly-moving wheels of a brick machine on which he was working in the K. & K. brick yard, Bishop street, yesterday morning, Mike Ruzsich, an Austrian laborer, was drawn into the coils of the machine without uttering a cry for help.

Robert Higgins, superintendent of the plant, was standing near by, but making only a slight effort to extricate himself. When he found he could not do so he apparently made no effort to save himself.

Both arms and most of his ribs were broken. The sound of the wheels crunching through his body attracted workmen, who stopped the machine and removed the mangled body. He died shortly after he was placed on the operating table at the Receiving Hospital.

MOTHER'S LOVE SAVES BABY.

Pitched From Wagon When Axle Broke, Dairyman's Wife Protects Child and Dislocates Her Arm.

By throwing her arms around her baby's face when she was pitched from a buggy at Sixth and Indiana streets yesterday, Mrs. J. H. Wade of No. 419 South Broad street saved the child from serious injury to it. Her arm was dislocated.

Mr. Wade recently purchased a dairy near the city and was moving the household effects to the place. Yesterday afternoon he sent a driver, William Kewen, to get Mrs. Wade and the children. Mrs. Wade held her 3-year-old girl on her lap, and her baby in her arms. At Sixth and Indiana streets the front axle of the wagon broke and they were thrown into the street, Mrs. Wade striking on her elbow.

THE OIL INDUSTRY.

(Continued from First Page.)

Standard wells Nos. 4 and 8 are producing about 10,000 barrels of oil per day. The gravity of the product is between 22 and 24 degrees Baume.

Cool Oil Indications.

The Venlos and Kern Realty and Oil Company has a good report of the development work on its San Luis Obispo property. The drill in well No. 1 is now down about 300 feet, and indications are that the pay sands will be encountered within the next 200 or 300 feet. The boiler is bringing up a great deal of oil and a large volume of gas is escaping from the top of the casing. Reservoirs for holding the oil will be completed before the well comes in.

News Notes and Personal.

Thomas A. O'Donnell, field manager of the Doherty-Candfield oil properties in California, and one of the best-known oil operators in the State, has just returned from a trip to the Lost Hills, where the American Oilfield Company is operating. He said that at the present time there are but two producing wells in the new field.

W. J. Doherty, a well-known oil operator in the San Joaquin Valley fields, is staying at the Lankershim Hotel for a few days.

E. L. Doherty, Dr. Norman Briggs and C. A. Candfield are again settled in their offices after a rather strenuous inspection of their Mexican oil properties. They went to the City of Mexico to inspect their new gas plant, and while there were received in audience by President Diaz.

L. R. McCollum of Coalinga has recently returned from several months spent in the Caddo and Vinton oil fields of the fourth. He addressed the last meeting of the Coalinga Chamber of Commerce on the conditions in those fields.

B. W. McIntosh, president of the Berkeley-Coalinga Oil Company, came down from San Francisco the other day to inspect his oil properties and will spend several days in the field.

E. W. Flinders of the geological department of the Associated Oil Company at Tulsa has been in the Coalinga field for several days.

THEY MAKE HIM A MOOSE.

Col. Roosevelt Is Corralled by the Order in This City and Taken Into Honorary Membership.

Col. Roosevelt will probably kill no more moose. He is one of them. While a guest of the Harvard Club Wednesday, he signed an application for admission to the Loyal Order of Moose, paid his dues for one year, and was duly admitted as an honorary member at a meeting of the Los Angeles lodge last night, when 200 candidates were initiated into the local lodge. The action of Col. Roosevelt's application created the widest sort of Moose enthusiasm, among the 1500 members of the order present at the meeting which was held in Blanchard Hall. The local membership is now 2000. National organizer, B. B. Bloom, who now has his headquarters in Los Angeles, and Supreme Representative, L. I. Williams of San Diego, compassed the problem of securing the application of Col. Roosevelt, and the latter prizes as a souvenir of the occasion, the post with which the application was signed.

Good Clothes

343 South Spring Street

The Distinctive Styles

---the abiding satisfaction---and

the honest values combined in Wood Bros.

fine hand tailored clothes afford an object

lesson to every man who is thinking of a

new spring suit.

The man who imagines that he is going to

save money on his spring suit by waiting till

the early so-called "sales" begin has but to

visit Wood Bros. and intelligently compare

values to be convinced otherwise.

The Wood Bros. store never marks merchandise above its real worth

at the beginning of the season in order to make possible seemingly

alluring reductions later on. A suit that can be sold for \$20.00 late

in the season is never marked at \$30 or \$35 here, and then reduced

it is marked at \$20.00—its honest worth—right when the season opens.

This spring we are offering handsomer clothes and stronger values

than we have ever offered before—and to those who are familiar with

the high standards of this store this is saying much.

Our windows show some exceptional values in

\$15-\$20-\$25-\$30-\$35 Suits
